**Description: wePlan for Action (2005-2010)**
wePlan is the implementation of a community health plan based on an extensive assessment conducted in partnership with community leaders, providers and residents of suburban Cook County. Using MAPP (Mobilizing for Action through Planning and Partnerships) a nationally recognized planning process facilitated by the Cook County Department of Public Health (CCDPH), three priority health indicators were identified:

- Youth Violence
- Access to Care
- Chronic Disease

The overall purpose for wePlan is to lead a regional effort committed to improving the health of suburban Cook County residents. As a result, taskforces were created to address each of the priority health indicators listed above.

**Overview: wePlan Youth Violence Prevention Taskforce**
The wePlan Youth Violence Prevention Taskforce (YVP) is comprised of a diverse group of community based organizations with the goal of preventing and reducing youth violence by strengthening community protective factors. YVP’s mission is to expand services, programs and agency partnerships throughout suburban Cook County by conducting the following:

- Identifying effective strategic approaches to youth violence prevention
- Promoting coordination, cooperation and collaboration among all agencies providing violence prevention services to youth and families, and;
- Expanding membership by recruiting additional community partners.

In 2007, the wePlan Youth Violence Prevention Task Force was convened. The concept of developing a comprehensive resource directory listing violence youth violence prevention programs and services derived from a series of meetings held by the committee. The result is the development of the 2009 wePlan Youth Violence Prevention Resource Directory.
About the Resource Guide
