MAPP - Assessments

MAPP brings four assessments together to drive the development of a community strategic plan —

- comprehensive assessments to drive the identification of strategic issues.
- **The Community Themes and Strengths Assessment** identifies themes that interest and engage the community, perceptions about quality of life, and community assets.
- **The Local Public Health System Assessment** measures the capacity of the local public health system to conduct the 10 essential public health services.
- **The Community Health Status Assessment** analyzes data about health status, quality of life, and risk factors in the community.
- **The Forces of Change Assessment** identifies forces that are occurring or will occur that will affect the community or the local public health system.

20 Years of *we* | PLAN : Lessons Learned

- Areas for improvement
 - Increase engagement of grass roots and vulnerable/at risk populations directly in process
 - Increase opportunities for public comment
 - Expand populations/groups to survey
 - Integrate other plans – health, service, economic, etc.
 - Stronger community input into health improvement plan development
 - Align strategies with existing assets, opportunities and plans
 - Build on and develop partnerships for implementation
 - Assure community accountability – monitor implementation

we | PLAN 2020: CHAC Decisions

- Participation – who/to what extent
- Structure – CHAC vs. subcommittee
- Needs/activities throughout
 - Process to provide input/suggestions for improvement of process
 - Effort to promote process/gain participation
 - Active role in assessment/data collection
 - Communicating/promoting/support results of WePLAN and implementation

we | PLAN 2020 Next Steps

- CCDPH to
 - develop timeline to June 25, 2015
 - Align WePLAN process with CCDPH Strategic Plan revision
 - Develop proposal for conduct of WePLAN/MAPP process
 - Communicating WePLAN 2015 activities
 - Outline process steps and components
 - Assessment strategies
 - Related logistics – times/places
 - Approaches to plan development and implementation
