1. Includes mosquito surveillance data from Cook County Department of Public Health, Skokie Department of Public Health, Evanston Department of Public Health, North West Mosquito Abatement District, North Shore Mosquito Abatement District, Des Plaines Valley Mosquito Abatement District, South Cook County Mosquito Abatement District, and the Illinois Department of Public Health.

2. Alsip, Arlington Heights, Bartlett, Berkeley, Broadview, Buffalo Grove, Chicago Ridge, Des Plaines, Elgin, Elk Grove, Evanston, Evergreen Park, Forest Park, Glenview, Hickory Hills, Hodgkins, Hoffman Estates, Kenilworth, La Grange, La Grange Park, Lansing, Lincolnwood, Melrose Park, Morton Grove, Niles, Northbrook, Northfield, Oak Lawn, Oak Park, Orland Park, Palatine, Park Ridge, Prospect Heights, River Forest, Rolling Meadows, Skokie, Tinley Park, Willow Springs, and Wilmette.

Dead Birds: Thirty-two birds have been submitted for testing. Twenty-six birds have tested negative, three birds have tested positive for WNV, collected in Oak Lawn, Riverside, and Western Springs. Three birds are pending results.

Human Cases: One case of WNV infection in humans has been reported.

Risk Assessment

There is an **increased risk** of human West Nile Virus infection at this time.

Prevention: When outdoors between dusk and dawn, cover skin with lightly colored loose fitting clothing and use mosquito repellent with DEET, picaridin or oil of lemon eucalyptus. When applying repellent, always follow the directions on the product label. Get rid of standing water around your home in pet bowls, flower pots, old tires, baby pools and toys. Water that is allowed to stagnate for three or four days becomes a breeding ground for mosquitoes. Make sure your doors and windows have tightly fitting screens and repair any tears or other openings. Keep weeds and grass cut short and keep gutters clean and free of debris.

Disclaimer: All data are preliminary and may change as more reports are received.
